

Sending money with Interac e-Transfers now costs you less!

We're happy to announce that effective August 1st, 2018, Interac e-Transfers from personal Coastal Community accounts are being treated as regular self-service transactions.

How does this change the fee for an Interac e-Transfer transaction? Glad you asked!

- For certain account packages, Interac e-Transfers will be included **for free** as part of the allowable number of transactions for that package.
- The Interac e-Transfer fee for non-package accounts, or for transactions above a package limit, is being reduced from \$1.50 to **\$0.85**.
